E-MAIL: mohammadabdurrehman97@gmail.com

SUMMARY:

Detailed-oriented and motivated professional with strong expertise in software development, digital solutions, and front-end design. Proven experience in developing smart transport systems and academic guidance portals. Skilled in React Native, Next.js, Firebase, and Tailwind CSS. Known for clear and compelling communication, creativity, and impactful organizational leadership.

EXPERIENCE & PROJECTS:

Final Year Project: TOSMS (Transport Operations & Safety Management System)

- Developed a smart digital transport solution featuring Android mobile application design and development.
- Integrated student and driver management modules, admin dashboard, and vehicle rental system.
- Implemented route and ride management with Firebase real-time database integration.
- Utilized GPS-based transport monitoring using React Native, Next.js, and Tailwind CSS.

Semester Project: University Student Portal (Guidance System)

- Developed a web-based university portal to assist new students during admission and throughout their degree journey.
- Provided complete A-to-Z guidance regarding degree requirements, course planning, and academic progression.
- Managed academic performance tracking and grade improvement notification systems.

Semester Project: Tourist Guide System for Pindi Division

- Developed an interactive tourist guide platform featuring a user-friendly interface.
- Executed extensive front-end design to showcase location-specific images and information.
- Integrated a helping chatbox to guide users and enhance the travel experience.

Founder & Owner: NGO RAAH E HAQ (Past 6 Months – Present)

- Founded and successfully led the organization to drive impactful community welfare initiatives.
- Spearheaded strategic planning, daily operations, and successful campaigns to deliver meaningful support to the community.

ACHIEVEMENTS:

- Graphic Designer: Successfully completed various design projects, demonstrating creativity and proficiency in visual communication tools.

SKILLS:

- Technical Skills: Front-End Design, React Native, Next.js, Firebase, Tailwind CSS, Android Development.
- Soft Skills: Problem Solving, Teamwork & Collaboration, Event & Welfare Management.
- Management Skills: Organizational and Leadership Skills.
